U.S. WILL PRESS CASEExpected Statement of Sir Ed.  
Grey is Awaited with Much  
InterestBy Bulletin Leased Wire  
WASHINGTON, March 2.—President Wilson revealed to those who witnessed his press conference today that he fully realized the gravity of the situation resulting from the killing of Sir William Benten, a British subject, the reported assassin, Cayetano Bauch and Vergara, American citizens and General Carranza, who is the leader of the United States to look after the interests of foreigners in Mexico.

The president spoke deprecatingly of armed intervention, but at the same time pointedly referred to the size and power of the United States and the United States as being sufficient warrant for a calm and patient course while compacting with American demands was being served.

Carrasco got the impression from the president that he was determined to try every means possible at his disposal to solve the Mexican problem, but that he remained certain eventualities would be avoided.

Upon Great Britain's attitude toward the Benten case, General Carrasco said the United States would be involved in the case, and the United States will become involved. Should England show inclination to let the Benten case go, then the Benten case will become involved.

Sir Edward Grey's expected statement to the House of Commons is awaited with much interest, and it is hoped by many he will show just how great Britain expects reparation for the Benten killing at this time.

NOT SMOKING AT WORK  
MEDICINE HAT, March 2.—Henceforth no more may the laboratory in Medicine Hat enjoy a smoke while on duty. The men no longer will they be given any shadow of a chance to loaf on the job. From now until the end of the month all smoking during work time must cease among city employees, and to the foremen went the order that all smokers must be fired.THE TRAIL PICKED BY THE TRAIL  
MEDICINE HAT, March 2.—Following the robbery and murder when the train came to a stop at the station, the two men who had held up the Great Northern train last Friday near Bellingham and the men of the bandits have been traced for the past ten days. "Kid" Bechard, the leader of the gang, has given up their names in several prisons, are the men, the police say.

Express trains will be on the trail and Mahoney arrived from the north on a second bandit attempt and on a fourth, held up the train at the Northern Pacific route for Butte, Mont. From there they went to Salt Lake City. The police hope to make captures in a few days.

JURY'S VERDICT  
IS MANSLAUGHTERWorld's News in Brief Form  
By Bulletin Leased WireCharge Against Leonard McGib-  
bon, Who Killed His Cousin,  
Is Reduced

STE. SCHOLASTIQUE, Que., March 2.—After deliberating only fifteen minutes, the jury today brought in a verdict of manslaughter in the trial of Leonard McGibbon, 22 years old, on trial for the past two weeks for shooting his cousin, John McGibbon, Jr., 25 years.

The tragic, the sequel of a long and bitter family quarrel between the McGibbon family, occurred on the farm of the victim's father, near Dalesville, a small community of Argenteuil, on Friday, Feb. 1st last.

Mr. Le Gault, prosecutor, addressed the jury, and said he had no desire to find a verdict of murder, as it seemed probable the deceased fired the first shot. After a short deliberation he recommended a verdict of either justifiable or excusable homicide. Upon the verdict was given, he said he would not have to argue the case any longer.

The conference was opened with the consideration of many resolutions which have already been brought forward by the committees in charge and election of officers.

## CALGARY RATEPAYERS SEEK AN INJUNCTION

Controversy Over Location of  
Union Stockyards in  
City Takes New Phase

CALGARY, March 2.—The controversy over the location of the union stock yards in which the three railroads and the city of the city are to be equally interested, assumed a new phase today, when four ratepayers, D. C. Ferguson, F. D. Ferguson, F. D. Ferguson and W. Brocklebank, applied for an injunction restraining the city council from proceeding with the move, or Walker site, for which the city proposes to pay \$500.

The ratepayers represent a faction which would locate the yards on the outskirts of the city. The mayor, along with the members of the Canadian Pacific and the Burns interests have declared for the inside site, while Commissioner Ferguson, F. D. Ferguson and the Calgary Consumers' League, are fighting for the outside site. The Canadian Northern and the Grand Trunk have made no declaration.

**DEATH OF W. C. CAMPBELL.** The funeral took place at Holden, Alta., Sunday afternoon, of William Campbell, son of Mr. and Mrs. William Campbell. The young man, who was 24 years of age, died at the Princess Hospital, the Alexander Hospital, Edmonton, after an illness of only a few days, the end coming on Saturday morning.

For the last two years the deceased had been studying law with the firm of St. John, Cross, Campbell & Biggar, in Edmonton. The funeral was held in the Methodist church at Holden, Mr. Beaumont, of Alberta College, officiating. Many of the young men, being old acquaintances of his boyhood, and including a large number of his friends, friends and kinsmen of the deceased.

Dr. Ghostly also spoke along the same line as Dr. MacPadden. The question was referred to the executive committee.

TUESDAY, MARCH 3, 1914

The collision on Jasper Avenue Sunday evening affords the police a good starting-point for a campaign against the joy-riders who during the night convert the main business street of the city into a speedway.

A brand-new torpedo boat destroyer can go on the rocks in the Firth of Clyde. Canadian journalistic navigators who can demand the Canadian Government incompetent because the Niobe found a reef off the Nova Scotia coast will, of course, summarily dismiss His Majesty's Board of the Admiralty.

If any contractor overcharged for work on the National Transcontinental, the Borden Government had the remedy in their hands. The accounts were not paid to the contractor, whose progress estimates only being paid by them. If the commissioners appointed by the present Government have paid the accounts, then the accounts must have been correct or the present commissioners must be conspirators to the robbery of the public.

In two months the city council have borrowed and spent a million dollars, besides it is to be supposed, whatever was left of the taxes collected during the fall. The proceeds of last year's tax levy were about three millions—not all of which, of course, has been paid. One million of this must go to pay the charges of the city's debt. If the council are to keep within last year's income they will have to cut their running expenses of the next ten months with a third of the city's taxes. As a matter of fact, they are spending in the quietest season of the year at the rate of a half million per month. The prospect is that this year's tax bills will be larger than those of last year.

The United States naval appropriations provide for two new dreadnaughts. The news will be welcomed by the people of British Columbia, all Canadians who apprehend danger from any power in the Pacific. Against invasion from the Orient the United States would be bound by self-interest to make common cause with the Dominion. It is not very flattering to our national self-respect to have to count upon United States ships defending our shores, but as we are doing nothing to prepare for defending them ourselves, we may pocket our pride and take satisfaction in knowing that the United States will have the ships when the war comes. It would be better to be defended by "Yankee" ships than conquered by Japs or Chinamen.

General Carranza says Great Britain, and not the United States, must deal with him concerning the murder of Benton; knowing, of course, that the Monroe Doctrine forbids Great Britain doing anything more dangerous than firing salvoes across the border. It is a definite natural development for the world recognition the Washington authorities have given the Constitutionalists. The bandits have come to regard Uncle Sam as a very indulgent guardian and protector, who will neither hold them accountable for their deeds nor allow any other power to do so. Their new proposal that the United States should refrain from enquiring into the Benton case, and should also play the bully to prevent Great Britain dealing with the matter in any effective way, is not out of line with the conception they have formed of

Washington's disposition toward them. That President Wilson will either play any such role or suffer the world to think him willing to play it is inconceivable. It is to be expected that the Constitutionalists' idea of the United States' attitude toward themselves will be given a sudden and altogether different slant, and that the body of Benton will be produced and a proper enquiry into his killing made under direction of the Washington authorities.

Whether the asphalt deposits in northern Alberta amount to one hundred and twenty billion tons or to two hundred billion tons will, of course, be a very important question some time in the future. For the present generation the essential fact is that there is a good deal more of the stuff than can be dug up during their period of life, however energetically the business may be gone about.

## IN HOUSE OF COMMONS

Ottawa, February 24th.

Another commission is to be added to the long list already appointed by the Government. So far, the majority of the commissions appointed since 1911 have been to enable the Government to sidestep its responsibility. The commission announced last night by the Minister of Public Works is to examine this rule. It is to investigate the unexamined possibilities of the proposed Georgian Bay Canal, and upon its report the Government is to either build or not build at a cost of two, three or four hundred millions, as the case may be. That commission, however, has one unique feature—it is to serve without delay.

The proposed Georgian Bay Canal is such a gigantic work that it naturally arouses enthusiastic approval along its line of route, while just as naturally it arouses a corresponding measure of disapproval in those sections of the country who do not believe that it has been submitted very strongly that the failure to publish the report is due to the mechanical design and not to the mechanical exigencies of the printing bureau. It may be taken that if the report was very damaging, means would have been found of getting it printed and distributed by the court. The disqualification of the plaintiffs to submit their case to the court is pretty good evidence that they have not much of a case to submit.

The Calgary Albertans thinks Calgary is more fortunate than Edmonton in having fewer clubs in which the social idea is merely a blind for the business of selling beer. Calgary promoters evidently know better than their local contemporaries in catching on to the possibilities of the Homecoming system. Now that they have been shown, they are not doing quite ready a sheaf of bills of incorporation to put before the Legislature at next session. The Albertans think, however, that Calgary has quite all

the details of the regional event day back to '96, and probably to the first session of Parliament at Ottawa. Sir Wilfrid Laurier moved for papers. He alluded to the growth of the country's trade and to the fact that while nearly eighty million bushels of Canadian wheat had gone to Buffalo last season little less than sixty million had been shipped to Montreal. "On this fact he based the case for a statement of their policy regarding the Georgian Bay Canal. As already stated, the reply of the Minister of Public Works was that he would appoint a commission to report on the commercial feasibility of the scheme, and that the Government would be absolutely guided by the report made. As a means of avoiding delay, however, he suggested that the commission might report on the Ottawa River section or on the French River section, separately, and on one or the other of these reports the Government would be able to take action. But Mr. Lamare, Nationalist, who had made a very elaborate speech in support of the proposition, pointed out that a report on the commercial feasibility of one section of the route could not possibly be an endorsement of

the project as a whole. Speeches in support of the project were made by Devlin (Liberal), of Wright, Que., and by White (Conservative), of North Beauvoir. Out. This closed the incident for another year.

It has been rumored for some time past that the Canadian North West was seeking substantial assistance from the Government. This is now practically confirmed by an official statement of the standing of the Canadian Northern, issued by Sir William Mackenzie. Judging by the secrecy with which the Canadian Northern has been able to maintain its financial position in the present time, Sir William's announcement would indicate that the company is after money, and after it hard. The main points of the statement are as follows:

Railway in operation ..... 7,352 miles  
Railway completed ..... 8,494  
Railway to be completed by end of 1914 ..... 9,943

Cost for construction and equipment to date ..... \$362,319,232  
Besides the cost of Rail, the Company have expended the sum of \$1,000,000 for industrial agency work for colonization work ..... 2,910,000  
Received cash dividends ..... 20,992,565  
Value of land grants ..... 600,000 acres, against which land grant bonds have been issued to the amount of ..... 4,000,000  
Eastern land grants: Ontario Government, 1,000,000 acres; Quebec Government, 749,450 acres not realized on

cost of proceeds of guaranteed bonds up to December 31st, 1912 ..... \$103,322,660  
Cost of construction and equipment assistance up to December 31st, 1912 ..... 124,122,171

According to Sir William's own statement, the company has received up to date \$70,000,000 more cash than it has expended in the road, and he has the two and three-quarter million acres of land in Ontario and Quebec untouched. Besides, it has the difference (whatever it may be) between the value of the 4,000,000 acres of Western land that his company received and the \$24,000,000 of land grant bonds that have been issued against it—that is, it has the difference between \$6,000 an acre on 4,000,000 acres of land, whatever the land may be worth.

No doubt Mackenzie and Mann are great men, and no doubt they have done good work for Canada as well as for themselves. No one wishes either them or their enterprise anything but the most complete success. No doubt if the financial stringency had not intervened that success would have been secured. The Canadian Hospital Association, Landred, is absolutely determined that there shall be no more strikes in connection with any of their contracts.

Again in regard to irregularities in the first place, loss of members in the local medical society does not in any way reflect on the practice of my own, I am sure. I have no means of estimating as many of the doctors of this situation and long time members of the society are not members of this society.

I believe, in justice to the public, that the strike should be called clearly and definitely before them, that they may be in a position to have the confidence of a number of the most prominent doctors in the city. I believe that the public will have no similar objection when placed in full possession of the facts.

Dr. JACKSON REPLIES TO  
MEDICAL ASSOCIATION

Editor Bulletin—Sir, I shall be grateful if you will correct the erroneous and misleading statement made by Dr. Jackson in certain quarters by an article in column 7, page 1, in the journal edition of the Canadian Hospital Association, in which he writes: "You will give this letter the prominence that you will give to the first place, loss of members in the local medical society does not in any way reflect on the practice of my own, I am sure. I have no means of estimating as many of the doctors of this situation and long time members of the society are not members of this society."

THE OTHER SIDE.

Sir—How many who paraded in the street of Edmonton Saturday night know what they were doing? How many who were present know that they are encouraging lawlessness in Canada by giving free their services to the strikers? How many know for the imprisoned miners in British Columbia? What is this? One hundred and twenty men, the men who are now in jail, have been railroaded into prison. A former resident of Edmonton—a very fine gentleman—was a member of the Board of Directors of the British Columbia mines previous to the strike. He had a large house and furnished it very comfortably. This man, when he was taken into jail, was forced to stay five days without food. In the meantime his house

was burned with its contents and his wife almost distracted with worry and fear. To show the animus of the strikers, they have outraged our miners, for whom our unions seem to be so solicitous, let me tell you. They have taken away the canary birds in the house that was burned, and have taken them from their cages and thrown them to the dogs to be killed. This incident is mentioned for the benefit of the boys around Saturday night. If you have heard any such story, let me tell you that the truth about this matter, how many would have been sync-

onizing with such brutal acts? Do not waste your sympathy. Innocent men are not railroaded into prison in Canada—Yours, etc.,

## FR. DRUMMOND ON PROBLEM OF MAN WHO SHUNS CHURCH

Simply Shows That Women Have More Sense, He Declares in Sermon

### OPENING SERVICE OF THE LENTEN MISSION

At Sacred Heart Church, Import-  
tance of Salvation Was  
Emphasized

(From Evening Record)

"It is said in most parts of the world that men do not go to church but leave it to the women of that church. The women know where men have more sense," they know it to be true.

This was a striking sentence in Father Drummond's sermon on the opening of the Lenten Mission at the Church of the Sacred Heart, Kinsmen Avenue.

In the sermon, the action of the presbyter, Rev. Father Drummond, whose eloquence is equal to his ability as a speaker, was the point. There, there was a congregation that taxed the seating capacity of the church.

First of all, the importance of saving our souls was dwelt upon, and was the main theme of the advantage of the Catholic church in her possession of certainty and cleanness as to the way of salvation.

In this matter of saving the soul, a matter of small importance, as some men seem to think, but in this case, there was a congregation that taxed the seating capacity of the church.

"We must face facts," said the presbyter, "and the first fact is that we shall lose them. How awful it will be to lose our souls! It is difficult to approach an idea of it, but we must be aware that it is a fact. We are not the ones to live. Nothing else really mattered in comparison with the salvation of our souls."

**Most True Facts.** "We must face facts," said the presbyter, "and the first fact is that we shall lose them. How awful it will be to lose our souls! It is difficult to approach an idea of it, but we must be aware that it is a fact. We are not the ones to live. Nothing else really mattered in comparison with the salvation of our souls."

**Truth of Divine Origin.** "Now to move on to the second fact, that the preachers must have a knowledge of the necessary path. The Catholic Church shows us the way to salvation, the origin and character of man.

How else can you explain that in the Catholic Church there is the greatest love of God, the greatest love of man, the greatest love of the greatest cardinal, the same faith.

"To love and serve God, to love and serve man, to have a life. Human love is often fickle and often those who we love do not love us. But God's love is constant. Anybody who wants the love of God can have it. 'Keep My commandments, and I will love you.'"

He then went on to say, "We have to show we love him."

The mission will last a fortnight and there is to be a service at 8:30 a.m. on the morning and 7:30 p.m. in the evening. The first week is for women and the second is for men.

There is a short sermon at each service.

**WILL GO TO SOUTH AFRICA.** London, March 2.—Tom Mann, Mississauga leader, who has been at the head of the movement to organize a labor agitation in relation to the proposed strike, will sail for South Africa on Friday.

**STANDARD BANK HAD GOOD YEAR.**

Net Profits After Paying All Expenses Over Half a Million

More satisfactory in every respect was the annual report of the Standard Bank of Canada which presented to the shareholders at the thirty-ninth annual meeting yesterday. Increases in all departments and in all branches of the bank, which exhibit a phenomenal growth in all branches and indicates that its funds have been fully utilized in the last year.

After making provision for bad debts, the amount of interest on unmatured bills under discount, exchange, cost of management, etc., the profit for the year was \$1,411,589, which is equal to 21.14 per cent. on the average outstanding capital for the year. During the year the dividends were paid at the rate of 12 per cent. amounting to \$141,158.90; there were contributions to the officers' pension fund, and this effect will be apparent later on.

During the year new branches were opened, and the officers report that the staff have discharged their duties faithfully and efficiently. Mr. Cowan was appointed for the office of auditor of the bank for the year.

### LONDON STOCKS

Sentiment Was Dull and the Demand Was Weak.

By Bulletin Leased Wire.

LONDON, March 2.—(Western Associated Press)—(Text, Cable).—There was not much encouragement in the stock market today, either for the present or for the future. The market was dull, the demand was weak, professional floating orders were quiet. In evidence was the fact that the only prominent feature was that under circumstances there was no big drama. The two main components of the market were the tax collections, which are now drawing to a close, and the renewing uncertainty as to the fate of the Ulster situation. Both of these are regarded as dangerous in the market.

There was a definite demand for can money at 2 per cent. and the market was quiet on the statement of the note issue of the Canadian Postage due today, offsetting the fact that the market was quiet.

Dividends released some four million dollars. Discounts were easing the three months' market.

### WINNIPEG GRAIN

Winnipeg, March 2.—On the whole wheat in trade was nervous and spasmodic, there was a very limited point of activity, marked. Trade in oats and barley was quiet, and sentiment in the pit seemed pretty evenly divided. Trade in wheat was gradually picking up a price, notwithstanding the heavy stock in the market. Prices were firm and scored a record for two years at its high point, but was then followed by a steady decline during the remainder of the session.

Barley is in good demand and prices are high, and there are a couple of bushels per barrel.

## EDMONTON BASEBALL CLUB SIGNS TWO PITCHERS

Deacon White Signs Two  
New Pitchers for EskimosTwo Stars From Southern California League, Recommended by  
Roche and Chandler, Sign Contracts—Foot Ruell  
Swings in Line.

The pitching staff of the Edmonton Eskimos Club for the 1914 season was strengthened yesterday by the receipt of signed contracts from Harold Stevenson and John Kiteen, both California from the Los Angeles, where young twirlers were strongly recommended to Deacon White by Jack Roche and Chandler, who are Roche and Chandler, who managed the Red Deer Club in 1913. Both men are in action this year in the Southern California League last season, and will again Deacon White to Everett.

## Edmonton Roster.

The complete roster of the Edmonton club may read as follows:

Pitchers—Jack Clayton, Gene Ford, Lefty Hendricks, Stallop, Harold Catches, Bob Spencer, Roy Le-

mmons, Jim Kiteen.

First base, Lou Nordyke.

Second base, Harry Redmond.

Short stop, Foo Ruell.

Left field, Eddie Franks.

Center field, Eddie Franks.

Right field, Eddie Franks.

Catcher, Good Results.

In addition to these men the Eskimos have agreed to sign at least two players to the local club, when the Eskimos will also have first call on the services of the players.

There have been so many inquiries about season tickets that the Edmonton club has decided to put a supply on the market, and they will be on sale by the end of this week.

PRES. GILMORE  
SAYS H. FRICK  
IS INTERESTEDFederals Hope to Get Some  
Steel Trust Millions—Out-  
laws Lose Match.

## By Bulletin Leaded Wire.

CHICAGO, March 3.—President Gilmore, of the Federal League, announced tonight that "A Pittsburgh millionaire" had decided to become a factor in the organization. It was stated that Harry C. Frick, of Pittsburgh, had seriously contemplated taking an active part in the national game have been in touch with some of the men, though Gilmore would not say Mr. Frick was the man, followers of the game here believe he is the one.

The Federals, who were engaged in a conversation over the long distance telephone between Gilmore and W. A. K. Smith, president of the Federals, latter is said to have promised that the deal would be closed on Thursday in New York.

## Beginning of War.

The telephone conversation led Mr. Gilmore to declare any attempt by组织 to declare any attempt by the Federals to dominate the game as signed by the Federals would be the beginning of a war that would threaten the foundations of the organized faction.

This statement was made in answer to questions concerning the reported defection of Pittsburgh manager, John Archibald & Hall-Dunn (A.L.).
